PCI COMPLIANCE ROLLER COASTER HOLDS NO FEAR AS UNIVERSAL STUDIOS ORLANDO REPLACE EXPENSIVE-BRAND SOLUTION WITH NNT

THE CLIENT

Few of us can deny the excitement that the mere mention of this famous theme park can generate. Visitors get to go behind the scenes, beyond the screen, and jump right into the action of real movies and films.

At this working film and TV production facility there is an array of rides, shows, movie sets and attractions that put visitors literally 'in the picture'. Visitors also enjoy themed dining and shopping, a variety of exciting special events throughout the year, and you might even catch a real film crew at work!

THE CHALLENGE

But even Theme Parks need to be compliant with the PCI DSS, and Universal Orlando Resort is no different. Like most PCI Merchants, Universal were originally directed to the main branded offerings of the time. However, again like most merchants, they quickly found these solutions to be expensive to own as well as complex and, in some instances, restrictive to use.

Keen to find a lower cost and easier to use alternative the team at Universal found NNT and, after an in-depth trial, decided the combination of Change Tracker and Log Tracker would be ideal for their needs.

THE SOLUTION

"NNT offered us a solution and price that was hard to ignore. The combination of excellent software and their super support has allowed us to implement a solution that saves us thousands of dollars in annual running costs compared to the previous system we had in place" says Don Bromley – Systems Manager at Universal Studios.

NNT provides File Integrity Monitoring, Change and Configuration Management and Event Log Management to all 'in scope devices'.

"As you might imagine we are thrilled to have such a recognizable name become another NNT customer" commented Russell Willcox, Chairman, NNT.

Russell concludes *"This is an excellent Case Study and further reinforces the message that when it comes to value for money for a true Enterprise-class featureset for PCI DSS – NNT is hard to beat."*

KEY FACTS - UNIVERSAL STUDIOS ORLANDO

- Founded in 1990, Universal Studios Orlando Florida is one of the world's largest theme parks
- Universal Orlando Resort comprises the original Universal Studios Florida theme park, Islands of Adventure, Universal City Walk and three themed Hotel complexes
